PROFESSIONAL SUMMARY

A reliable, approachable, hard-working, and self-motivated individual who takes pride in completing tasks to a high standard. Known for punctuality, adaptability, and rapid skill development. With a solid background in the automotive and construction industries, problem-solving skills have been honed and are now being applied to software development. Currently pursuing studies in management, economics and statistics at university while undertaking courses and personal projects in software engineering and data engineering.

WORK HISTORY

Software developer | Personal Project - 02/2024 - CURRENT
<https://compareproducts.wlozimierr.co.uk/>

- Developed website and mobile app for building product comparison, automated scrapers, data cleaning, indexing and CI/CD pipeline.
- Next.js front end, using Tailwind CSS and Shadcn UI.
- Nginx and Certbot for web server and SSL certificates.
- Mobile App with Next JS, Ionic, Capacitor and Tailwind CSS.
- Automated Python scrapers for B&Q, TradePoint, Screwfix and Wickes, containerised and hosted on AWS EC2, integrating Lambda, EventBridge, and AWS Simple Email Service.
- PostgreSQL on AWS RDS with Algolia Search for advanced indexing.
- CI/CD with GitHub Actions, AWS ECR and Docker.
- Grafana, Prometheus, Loki, Promtail, Cadvisor and Node Exporter for telemetry monitoring solutions.
- Check out more detailed info at https://github.com/wlozimierr/CompareBuildingProducts_Scrapers

Software developer | Personal Project - 01/2024 - 02/2024
<https://peakperformance.wlozimierr.co.uk/>

- Developed shopping application using React Vite for fast and responsive user interface and admin portal
- Implemented Node.js and Express.js backend for handling API requests and business logic
- Set up MongoDB database for efficient and scalable data storage
- Self-hosted application on Google Cloud VM, ensuring reliability and performance
- Set up Caddy for web server

EDUCATION

Codecademy, Distance Learning06/2023 – 05/2024

Full-Stack Engineering: HTML, CSS, JavaScript, Git & GitHub, React, Node.js, Express.js, SQL, Data Structures, Algorithms

Open University, Milton Keynes09/2022

Bachelor of Arts: Business Management With Economics

Completed a Statistics module in the first year with distinction. Currently on track to attain either a First or a 2:1 final grade.

- SKILLS
- Ability to work well with others and independently using my initiative
 - Strong analytical and problem-solving skills
 - Self-motivated and results-driven
 - Excellent written and verbal communication skills.
 - Proven ability to build and maintain customer relationships.
 - Jupyter Notebooks
 - Source Control (GIT, Github)
 - Operation System (Windows, Linux)
 - Microsoft Office (Word, Excel, PowerPoint)
 - Software Development Methodologies (Scrum)
 - Frontend (React, NextJS, Angular)

- Backend (Express JS, Node JS, Python)
 - Cloud Computing (AWS, GCP)
 - Database Management (SQL, NoSQL, PostgreSQL, MongoDB)
 - Python (Flask, Scikit-Learn, Pandas, PyTorch, TensorFlow)
 - JavaScript, TypeScript
 - Web Scraping (Requests, Selenium, Scrapy, puppeteer)
 - Data Analytics (Python, Minitab)
 - Data Structures and Algorithms
 - Telemetry (Grafana, Prometheus, Loki, Promtail)
 - Web Servers (Caddy, Nginx)
 - Testing (Jest, Swagger, Postman)

- AFFILIATIONS
- Weight Lifting, Boxing, Running
 - Financial Markets
 - Books [Psychology, Biographies, Technicals]
